

Successfully completing an Internet course

1. Understand that Internet courses are not “easier” than classroom courses. Disabuse yourself of any notion to the contrary. In a typical semester, 20% of my Internet students do not complete the course whereas 95+% of classroom students do.

2. You must be able to envision specific blocks of time in which you can complete your work, something like regular class times in a traditional course.

3. If you plan to do the work in your spare time, don't take the course because no one has any spare time.

Important note regarding “Incompletes”: Please know that students may not receive an Incomplete for any Internet course--i.e., all work must be completed during the academic duration of the Internet course. (Page 185, NOBTS Graduate Catalog 2017-2018.)
