Course Teaching Methodology

This course consists of grasping the geographical (geological structure), chronological, historical and cultural settings of the biblical world through -1) the require reading (class textbooks, and workbook extra materials found here that one is required to know); 2) viewing PowerPoint presentations which contain maps and other graphic media to help visualize and comprehend the historical and geographical settings (one can download them all but cannot publish materials form them) this is supplemented with 3) video lectures (but limited in number).

1. Materials for the class are located in Course Documents on Blackboard they consist of: the following are located: Map Quizzes, Exams, and Related Materials (extra maps, study guides for exams, and extra articles for you to enhance your understanding and knowledge), please make use of them.
2. There are 4 Sections and/or Units of Lectures to work through. Each Unit is broken down into a manageable set of Lectures delivered via PowerPoint and video presentations. Lectures are supplemented with outside reading from class texts as assigned in Course Schedule. Do make sure to do the readings best before viewing the Lectures and do take notes adding to the study guide supplied, for they will be helpful in studying for exams. Consult the Table of Content of each class textbook, for they do correspond to the class lectures, for the class follows a chronological order.
3. Lectures include (expanded from above):
 - 1) A Workbook divided into 8 Sections (1-8), which are notes that correspond with the PowerPoint lectures noted below. There are added materials here that will be required for exams.
 - 2) PowerPoint presentations one study & work through following a numerical/chronological order. They fall into 2 parts in most cases, consisting of a lecture followed by slides emphasizing the lecture & related geography.
 - 3) Video presentation – they are limited and, in most cases, consist of a summary of the lecture supplying one with the necessary information needed for the course.

- 4) The Notes and Lectures should be labeled the same (page numbers are given in the PowerPoints which correspond to the Workbook); if there are any problems please e-mail me or call.

Course Requirements

- 1. Map Quizzes (3 total)** – Get to know the World & land of the Bible, see handout “Regions, Cities to Know” for list of regions, cities and places to identify for the quizzes (see also extra detailed maps for you to use found in Course Documents). You will need to consult these maps besides class text and other Bible geography books; as noted, I have also placed many maps for you on Blackboard (under Study Helps) for use in both study and personal presentations. (**Remember many illustrations & photos used in this course are copy righted and cannot be published w/o written permission from me).
Quiz 1 = Land of Israel Includes: Regions, Mountains, Valleys, Rivers, and Bodies of Waters of Palestine (HBA Map 7 for help)
Quiz 2 = Tribes of Israel & OT Cites (Consists of 1 map for Tribes & 1 map for OT cities)
Quiz 3 = NT World (Mediterranean) of Cities & Kingdoms/Countries (Consists of 1 map for Kingdoms/Countries for Mediterranean world & 1 map for NT cities)
- 2. 2 Exams** – note there are study guides available for both midterm and final. They are only guides to help one organize and know what materials will be covered on the exams. Information for the exams come from class notes, power point lectures, and reading **it is up to the student to gather the necessary information!** Test will include matching (i.e. dates, inscriptions, know handout study guide), multiple choice, some fill in the blank, and short essays (need to be thorough) usually over various topics (i.e. Patriarchs, Exodus, Moses, Philistines, Shephelah, David, etc.).
- 3. Discussion Board (BB):** There are 5 various topics given while moving through the course on DB (see class schedule) for each student to submit a comment about (needs to be a full paragraph and hopefully some thought 😊) and then follow-up with interactions with two other students post in the class (more than a one-liner or just agreeing with the author’s statement).
- 4. Research Paper** - will be posted on Blackboard. Students have three options to write on:
A). A historical geography topic of a major region in Israel (i.e. Hill Country, Negev, Shephelah, Coastal Plain, etc.). Research for a region: should include:
 - Geological/topographical make-up of the region
 - The region's historical significance (its main function within Israel proper), comprehend how the regions was used, i.e. as defensive, commercial, agricultural, or maybe a combination of all, do some critical homework here
 - All major roads (locate both local and international), where did they go and why
 - Key cities (explain what is their main importance, include key archaeological excavations)
 - All bodies of water
 - Map of the region, locating key cites, roads etc. would be fine (but not a part of the page requirement)**B). Research on a significant Site/City:** which should include:
 - Is history and the identification of the biblical site (where the site/city is located does not matter Israel, Mesopotamia, Egypt etc.)
 - Why it is located where it is,

- Function in history,
- Who controlled it,
- Role it played in the development of the country it is in, and so forth (etc.)

C). Topical – a topic relevant to this course; see Blackboard for list of suggested topics. Make sure to get to the point, argue & present the significant elements of your research, have good interaction with sources (note original firsthand sources are the best, i.e. ancient texts, documents, eyewitnesses’ accounts etc.).

Format - Length 11-12 pages (title page and bibliography do not count and there is 5pts off for each page short of 11), double-spaced, standard 12 pt. font (e.g. Times New Roman). The paper should follow Turabian format for which a guide can be found on the Course Menu Bar towards the bottom. Paper needs to be submitted in a Word Document, No PDF’s, please!

Grading Criteria:

- Form & style and Spelling & grammar = 5% - make sure the theme is developed, logical, coherent flow of thought. May need an outline to keep one focused.
- Research & bibliography = 10% - use first-hand sources when possible (sources from the actual period one is dealing with), textbooks are secondary, by a good bibliography one is showing me that you did your homework! Note: 20% of bibliography should consist of sources from scholarly journals (1 ½ source per typed page is the acceptable norm, 10 pages = 7 sources, etc.).
- Content = 85% - the argument, keep focused on the topic chosen with an eye on the key issues and relevant data, well organized,

See Handout in BB: Suggested Paper Topics and Biblical Studies Journals for help!

A BRIEF HISTORICAL SKETCH OF ARCHAEOLOGICAL RESEARCH IN THE ANCIENT NEAR EAST

I. SURVEYS AND PILGRIMAGES

- A. **Helena**-mother of Constantine identified sites such as in Bethlehem with the Church of the Nativity and the Church of the Holy Sepulchre in Jerusalem.
- B. **Origen** (c.230-254) ("We have visited the places to learn by inquiry of the footsteps of Jesus and of his disciples and of the prophets.") + other C2-C3 AD church fathers note local traditions.
- C. **Eusebius** (c.325) - *Chronicle* of early searching for Holy places in Palestine --also in his *Onomasticon* (4th section of research on biblical geography, 1 - 3 are lost) lists alphabetically sites in Palestine w/ annotations.
- D. **Jerome** (c.385-420) Finished translation of Latin Vulgate at Bethlehem Church of Nativity and revised Eusebius' *Onomasticon*. Letters also mention sites.
- E. **Crusaders** - identified numerous sites and built churches on scores of them.

*** Some suggest that Thomas Jefferson may have been the first to carry out a form of scientific excavation, when in 1784 he dug a trench through an Indian mound on his Virginia property, noting layers (or strata) of bones and burial artifacts.

II. EMERGENCE OF EGYPTIAN AND MESOPOTAMIAN ARCHAEOLOGY

Beginnings of Methodological Excavation and Language Decipherment

A. EGYPT

18th Century

- 1. **Giovanni Belzoni** - plundered Egyptian tombs such as Abu Simbel, damaging many "unprofitable" items such as numerous mummies "to rob the Egyptians of their papyri" -- yet was considered somewhat scientific for his day.
- 2. **Napoleon** - 1790 took 175 scholars (architects, artists, historians, etc.) to Egypt with his army. 1799 - Rosetta stone found by artillery officers. Confiscated by the British. Opened hieroglyphics, with Demotic and Greek.
- 3. **Jean Francois Champollion** (Prof. of History and Oriental Languages at Grenoble at age 19) succeeded in deciphering the hieroglyphics. Published results.

19th Century

- 1. **Col. Richard W. H. Vyse** - used gunpowder to enter a pyramid in 1837.
- 2. **A.F.F. Mariette** (Fr)-collected manuscripts from Memphis, Gizeh sphinx, Tanis, Thebes. First to insist Egyptian authorities control excavation. Few still resorting to the use of gunpowder.

3. **Karl R. Lepsius** (Prussia) discovered Proto-Dynastic and Early Dynastic tombs and mastabas in Egypt, as well as Ptolemaic inscriptions.
4. **Gaston C.C. Maspero** (Fr) excavated pyramids & tombs of Pepi I, II, et al.
5. **Sir Flinders Petrie** - With British novelist Amelia Ann Stanford Edwards founded British School of Archaeology in Egypt (Egyptian Exploration Society). Appalled at the "excavation" methodology of his predecessors, Petrie developed more scientific approach (see below). Excavated Tel el-Hesi in SW Palestine in 1890. Moved to Palestine in 1926 BC due to difficulties in Egypt. Buried in Israel at Ecole Biblique.

B. MESOPOTAMIA AND ANATOLIA

17th - 18th Centuries

1. Cuneiform texts made their way to Europe (Br, Ger, Fr, Den, It) via diplomats, doctors, et al travelers, beginning in 1621.
 2. Decipherment of cuneiform ("wedge-shaped" from Latin cuneus) was gradual and slow. **George F. Grotefend** (a high school classics teacher, who was knowledgeable in Sanskrit and Pahlevi-desc. from Old Persian) deciphered some Old Persian names from inscriptions from Persepolis, which had been suggested as the capital of the ancient Achaemenid Empire. Yet cuneiform was far from translated. Persian modified cuneiform contained about 41 known symbols. Its cuneiform ancestors were such as Sumerian with 900+ pictographs which later became cuneiform representations; Old Babylonian (Semitic) of Hammurabi (c.1750 BC) with 600-700 signs; to Middle Babylonian with 350+; Elamite with 113 c.2500 BC; to 98 Neo-Assyrian of 700 BC. **Sir Charles Rawlinson** copied the Behistun inscription from the cliffs and worked on the basic decipherment from 1835 to 1851.
- * **Note:** It is estimated that only about 20% of the more than 500,000 cuneiform tablets have yet been translated. e.g.- Donald J. Wiseman published some of the important Babylonian Chronicles (9 tablets) in 1956 and Esarhaddon's treaties (1958), 80 years after they were brought to the British Museum. Thousands of others remain untouched after 100+ years.

19th Century

1. **C.J. Rich** - early 19th century. Excavated small tells near Baghdad and Kirkuk-Mosul.
2. **P.E. Botta** (Fr) - continued excavations at Mosul. Began at Nineveh.
3. **Sir Austen H. Layard** (Br) - Nineveh--Sennacherib's palace and Ashurbanipal's Palace and library (25,000 tablets). Nimrud--palaces of Ashurnasirpal, Shalmaneser II, Adadnirari, Esarhaddon (1845, 1852-53, 1878-82).
4. 1840-1850 - race between French and British to secure the most material national and personal museums. Untrained men plundered sites for whole pottery, solid objects, clay tablets, etc. Many damaged and lost, e.g.- Assyrian gate portal lost in Euphrates River.
5. **Hormuzd Rassam** and **Sir Henry C. Rawlinson** continued work for England. Rawlinson is known especially for his work in copying the Behistun inscription which led to the decipherment of cuneiform scripts (1837-).
6. **Victor Place** succeeded Botta in 1851, resumed excavation at Khorsabad palace of Sargon II.
7. **W. K. Loftus** excavated at Erech (Uruk, Warka) 1850, 1853-54) & later Larsa.
8. **Heinrich Schliemann** (Ger pastor) identified the mound of Hissarlik as Troy using Iliad as source text. Began digging 1870-72. With Wilhelm Dörpfeld (architect) published the first archaeological report, citing nine strata in the mound.
9. **E. de Sarzec** at Lagash. Rassam resumed work at Nineveh and Babylon.

20th Century

1. **Robert Koldewey** excavated at Babylon 1899-1917 (Iraq). Others continued work at Susa, Elam Lagash.
2. **Hugo Winckler** (Ger) began Hittite excavations at Boghazkoy (1906). Central Asia Minor (Turkey). Germans, Austrians, & Turks have worked at numerous sites in region.
3. **Baron Max von Oppenheim** excavated Tel Halaf, 1911-14, 1929-31. Prehistoric Halafian culture defined, dated to 5th-4th M BC. Comparable material excavated at Samaria by Herzfeld 1912-14, also at Arpachiya, Tepe Gawra, and Tel Billa in Nineveh region.
4. **Sir Leonard Woolley** excavated Ur (1922, 1926-) and Al-'Ubaid (1923-25). 1926 discovered the Royal Tombs of the early Sumerians.
5. **Erich Schmidt** at Persepolis beginning in 1935.

*** **Note:** The nation of Iraq was established in 1932, and the IRAQ Dept. of Antiquities has continued to excavate throughout Iraq with cooperative efforts of the British, French and American schools of archaeology. Laws limiting the export of archaeological artifacts were enacted as early as 1933.

6. 1949-1961 - excavation to Calah (Assyria).
7. 1965-present – Ebla >>15,000 tablets found in new "Eblaite" language, plus Sumerian and Akkadian. Located in N. Syria, near Aleppo.
8. Note recent excavations at Tel Emar and Tel Leilan.
Numerous excavations have continued in Turkey, Iraq, Iran, Syria, Jordan, Egypt.

Eli Smith** (Protestant missionary in Beirut, fluent in Arabic) in 1838 journeyed 105 days from Cairo to Beirut via Sinai, recording biblical and geographical data, from which were produced 3 vols. *Biblical Researches in Palestine, Mount Sinai and Arabia Petraea* (1841). Later in 1852 traveled in Galilee and Samaria, compiling additional vols. on those regions and a *Physical Geography of Palestine*.
