

Spiritual Maturity Inventory

New Orleans Baptist Theological Seminary Professional Doctoral Programs

The SMI is a 50 Question Inventory designed to help evaluate your perception of spiritual maturity by examining your life and behavior in eight core aspects of the Christian life. The self-assessment should take 10-15 minutes.

Your responses will be collected and used to assess your preparedness for doctoral studies. The results will be available to program administrators only and referenced during your interview for the professional doctoral program.

Indicate the degree to which each statement describes you. There are no right or wrong answers. Please respond to all the statements. When completed, please upload the SMI as a PDF to your application portal.
