*Initial Assessment for this program

**Because so few students enroll in this certificate, and because they are primarily are part-time students, we cannot rely on one or two course embedded assignments for data. Thus, we've selected four course embedded assignments that can be used to assess this SLO. Not all courses are offered every semester, so we will not have data for each of the direct or indirect measures for each semester of the assessment period. . For this SLO, direct and indirect measures artifacts will come from one or more of the following courses, depending on course offerings during the 2-year program cycle:

- Life of Christ: midterm exam selected questions
- Early Church: midterm exam selected questions
- Historical: midterm exam selected questions
- Prophets: midterm exam selected questions

Student Learning Outcome 2: The graduate will value biblical interpretive methods necessary for teaching the Bible accurately.
